

AMERICAN PAINT HORSE

The American Paint Horse is a very popular breed due to their great temperament, flashy colors, and work ethic. Paint horses can be used as working horses on a ranch but are also great riding horses for people of all ability levels. Paint horses usually have white and dark spots all over their coat. JHTR's horse Charlie Brown is an American Paint Horse with brown and white spots. Charlie Brown has a very laid-back attitude and works very hard to help participants of all levels learn to ride!
